

### **The Schuco AWS 102 outward opening window for curtain wall insert.**

The AWS 102 is a window that is specifically designed to be installed into a curtain wall. The following benefits include:

- Efficient ventilation with the thermally insulated Schuco Window AWS 102
- Outward opening hinged at the top or parallel opening

- Large openings for better ventilation with a maximum vent weight of 550 LBS; up to 106" wide x 141" tall units are possible
